

Data Analyst focused on data quality, reporting, and business intelligence. Experienced in building data pipelines, structuring analytical databases, and delivering visualisation and prediction solutions. Comfortable in complex environments requiring rigour, data reliability, and close collaboration with business teams.

PROFESSIONAL EXPERIENCE

Data Science Intern | Sonatrach (Oil & Energy Sector) 2023 - 6 months

- Designed a data platform for the analysis and prediction of oil drilling data
- Processed, cleaned, and prepared heterogeneous datasets (CSV, LAS, SEG-Y) using Python
- Built a MongoDB Data Warehouse and implemented a Random Forest predictive model (Scikit-learn)
- Developed an analytical web application (React + Flask) with interactive dashboards for decision-making

Web Development Engineer | Bomare Company (Electronics Industry) Nov 2023 – Mar 2025

- Built full-stack web applications using Node.js, Express.js, Django and JavaScript
- Designed REST APIs and integrated them with MySQL and MongoDB databases
- Developed real-time features with Socket.IO and HTMX; contributed to scalable application architecture
- Deployed applications, wrote technical documentation; used Git and Postman for versioning and API testing

PERSONAL PROJECT

HR Analytics Data Warehouse (Github) 2026

- Designed a decision-support HR platform from a 2M+ employee dataset
- Modelled a PostgreSQL Data Warehouse using a star schema for analytical reporting
- Built an ETL pipeline for data cleaning, transformation, and integration
- Created interactive Power BI dashboards (DAX measures) to track key HR indicators
- Conducted business analysis and formulated data-driven recommendations

Skills

Analytics & Data

- Python: NumPy, Pandas, Scikit-Learn
- SQL (PostgreSQL, MySQL, SQL Server)
- Power BI, Matplotlib, Seaborn
- Data cleaning & quality
- Reporting & dashboards

Data Engineering

- Data Warehouse & Data Mart modelling
- ETL & data pipelines
- MySQL, PostgreSQL, SQL Server
- MongoDB

Tools & Technologies

- Node.js, Flask, Django, Java
- REST APIs
- Git, Docker, Jira
- Excel (data manipulation)

Education

MSc Big Data Analytics	USTHB, Algiers	2021-2023
BSc Computer Science	USTHB, Algiers	2017-2021

Languages

French: B2 - English: B2 - Arabic: C2

Assets

Rigour · Analytical mindset · Team player · Adaptability
